

STRONG PASSWORDS

KEEP YOUR ACCOUNTS. YOUR INFO. YOUR FUTURE.
SIMPLE HABITS. BIGGER PROTECTION.

1

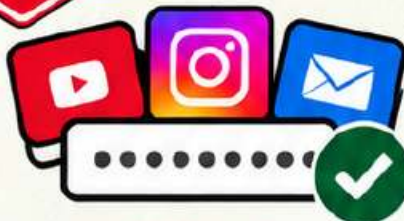

MAKE IT LONG

Use **12+** characters with a mix of letters, numbers and symbols.

2

MAKE IT UNIQUE

Use a **different password** for each account.

3

USE A PASSWORD MANAGER

Let a **password manager** create and remember strong passwords for you.

4

DON'T USE PERSONAL INFO

Avoid using your name, birthday, school, or other info that's **easy to guess**.

5

TURN ON MULTI-FACTOR AUTHENTICATION (MFA)

Add an **extra step** (such as a code from your phone) for stronger security.

6

KEEP IT PRIVATE

Never share your passwords with friends, and be cautious of phishing messages.

SMART
PEOPLE
PAUSE.
